As a child I remember my grandmother cooking all Sunday for our long and traditional Sunday lunches where we would all gather around the table for hours, the flavors and scents still bring back memories from my childhood and my grandmother very much inspired me to become a chef growing up.

My grandmother's cooking was very much based on the Mediterranean Diet which is a way of eating based on the traditional foods of the countries surrounding the Mediterranean Sea.

Healthy living is becoming a major trend nowadays due to the health hazards one may face with maintaining an unhealthy and high tempo lifestyle. We all know how stressful it can be travelling and being away from home and family.

The Mediterranean Diet is not a diet, as in "go on a diet," rather, it is a lifestyle, including foods, activities, meals with friends and

family, and wine in moderation with meals. Just as important, the Mediterranean Diet is full of wonderfully delicious, flavor-filled dishes and meals. It's easy to understand what it is for instance, I try to think about simple, yet healthy and delicious dishes, that also suit the onboard environment for heating and serving passengers from all over the world that all has to live the modern life where time is always of essence, my wish is that eating my food should be a discovery in flavours and perhaps awakening memories of scents from childhood, just as my grandmother inspired me, I hope I can inspire others.

Last but not least, my meals can be packed in any type of packaging from my own Primo Gusto brand to private label, sizes, shape and weight to suit your needs and budget. This combined with worldwide logistics, right product, right place, everytime!

Buon Appetito!

Mezete brings you all-natural food without compromising on health, taste or convenience.

"Mezete, the next best thing after homemade food!"

The Nudie Snacks brand was born in 2016 with the launch of healthy coconut chips into the UK market where the coconut trend was growing rapidly. The brand has since grown rapidly and evolved into a brand that is all about producing great tasting, innovative better for you vegan snacks.

Nudie is all about smart snacking – making better choices when you want to snack and enjoying great vegan products.

Nudie Snacks recently launched a raft of new and innovative snacks. Their exciting range of Vegan Roasted pulses are focussed on the "better for you trend" driven by consumers demand for healthier products.

And many more flavours.

The new Nudie Snacks Roasted pulses range are great for on the go healthy snacking and are high in plant based protein and fibre, two benefits that are very on trend.

The new Roasted pulses are packed in super convenient shot packs which are fantastic for on the go impulse and lunchtime retail as they are so easy to merchandise at checkouts or on snacking fixtures. The packaging is very colourful and really stands out on the shelf.

Nudie has also launched a very healthy and raw vegan protein energy balls products available in 3 great flavours (such as Cinnamon and Almond) that are all gluten free, Paleo and high in protein.

The Nudie mantra is "Snacking should be all about adding value to your diet not detrimental to your health".

Savoury snacks

Huober Brezel is a family founded company in the heart of Baden-Württemberg, south-west Germany. We are the leading specialist for high quality salted biscuits and the only manufacturer of its kind, which is constantly independent since its establishment over 60 years ago.

All products are manufactured according to organic quality standards since 1996. We place our trust in the proficiency and expertise of our work force, technology advances and adhering to approved recipes.

Our factory uses manual labor where possible. We only use machines during the baking process where food security is improved and the quality of our products is not put at risk.

Whilst we strictly adhere to the EU rules for organic farming, we are also able to guarantee our customers the quality and pureness of our resources by intensive and long term partnership with the farmers, millers and producers of the processed grain.

Mini pretzels
15 and 40 g

The slogan "The brand that makes the sun shine three times" is not only a symbol for the shape of the traditional pretzel, but rather emphasizes the interplay of different aspects which drive our entrepreneurship: Ecology, Economy and Social affairs on the one side or Experience, Patience and Consequence respectively.

We offer pretzels in four different sizes, among them the big pretzels, princess pretzels with sesame and the hot chili mini. We also have a range of extra fine salted sticks and the extra strong and large longsticks with sea salt, sesame and bear's garlic.

The company history started over 60 years ago with the invention of the HUOBER Big Pretzel in 1954. It was the first product to be produced in the "First pretzel factory in Württemberg". In the following years HUOBER Big Pretzel became a huge success all over Germany, followed by pretzels in different sizes and variations including breadsticks and other salty and sweet specialities. By 1956 our products were already available in the USA. Today they are available all across Europe and many countries in America and Asia.

Pasta with the aim of bringing quality even in a segment generally poorly cared. With the same philosophy of our instant pasta we launched; My instant pasta, a product that combines Italian taste for sauces, a revolutionary concept in instant products i.e. the use of only natural ingredients in both the Pasta and the sauces.

We have therefore launched two lines, one organic and one traditional that propose in a new format some of the most famous Italian recipes, including for example:

Pesto, Arrabbiata and Cheese, for a healthy and tasty meal just like home, anywhere anytime.
